

VACANCY

Project Engineer – Platin Works

Irish Cement Limited is seeking applications for the position of a Project Engineer in Platin Cement Works, Drogheda, Co. Louth on a 2-year fixed term contract.

Irish Cement Limited is a fully owned subsidiary of CRH plc and has manufactured cement in Ireland for over 80 years. It operates two cement-manufacturing facilities, one situated in Platin, approximately 5km from Drogheda, Co. Louth and a second in Castlemungret, Co. Limerick. Production uses the most advanced, energy-efficient technology to create a range of high-quality cements to the highest Irish and International standards.

We have a range of ongoing and upcoming projects in the areas of environmental and process improvement, energy reduction, alternative fuels and alternative raw materials. The successful candidate will report to the Projects Manager.

The successful candidate will have responsibility for the following:

Duties and responsibilities

- Working with the Projects Manager to deliver a portfolio of capital projects to support the plant operating strategy
- Define the scope of a range of projects in collaboration with internal stakeholders
- Manage project execution
- Ensure compliance with all relevant safety regulations and legislation
- Responsible for multidisciplinary project design
- Liaising with suppliers, designers and consultants
- Preparation of Tender Documents for the supply and installation of equipment
- On-site supervision of contractors
- Management of project budgets and schedules
- Completing project handover to operating plant
- Design and feasibility studies

The above list is not exhaustive. The successful candidate will be expected to perform duties as necessitated by the changing role and the overall business objectives of the Company, as directed.

Essential Qualifications, Knowledge and Skills Experience:

The candidate should bring a positive attitude and self-starting ability with the aptitude to take ownership of projects as required and see them through to completion. Along with:

- A minimum of 4/5 years' experience in Project execution
- A degree/qualification in Engineering/Projects Management or related discipline
- Experience in management of safety aspects of projects would be advantageous
- Proficient in Microsoft Office, Microsoft Project and AutoCAD
- Excellent communication and influencing skills
- Experience operating in heavy industry an advantage

Applications should be emailed to jobadvertisements@irishcement.ie using the following subject heading "Project Engineer Platin".
