

## VACANCY

### TECHNICAL ADVISORY ENGINEER

Irish Cement Limited, a subsidiary of CRH plc, is seeking to recruit a Technical Advisory Engineer to join its Technical Marketing team. The successful candidate will be based in the company's Head Office in Platin, Co. Louth and will report to the Technical Advisory Manager.

Irish Cement Limited has manufactured cement in Ireland for 85 years. It operates two cement-manufacturing facilities, one situated in Platin, approximately 5km from Drogheda, Co. Louth and a second in Castlemungret, Co. Limerick. Production uses the most advanced, energy-efficient technology to create a range of high-quality cements to the highest Irish and International standards.

The key responsibilities of the position are:

- Provide product quality information and advice on cement and concrete technology to customers, specifiers and end users.
- Liaise with the R&D team in resolving customer issues and responding to general technical queries from the wider industry.
- Manage product evaluation programmes, including any outsourced projects.
- Assist in the development of the company's sustainability strategy.
- Contribute to the development of the company's website and literature.
- Represent the company at industry technical events, engage with 3<sup>rd</sup> level institutions and participate in industry and standards committees as required.

The role requires knowledge of the construction industry combined with a strong technical background to interact with stakeholders at all stages of the cement and concrete supply chain.

Candidates should ideally possess:

- A minimum of 3 years relevant experience in the construction industry together with a civil engineering degree or similar qualification in a construction related discipline.
- Excellent communication and relationship building skills.
- Proven technical skills and business acumen.
- Competent IT knowledge, with strong analytical skills and attention to detail.

The successful candidate will receive training to broaden their existing knowledge of cement and concrete. Opportunities for further development may arise within the broader CRH group.

Candidates wishing to be considered for this position can submit their current CV to [careers@irishcement.ie](mailto:careers@irishcement.ie) using the subject heading "Technical Advisory Engineer" or visit our website at [Careers | Irish Cement](https://www.irishcement.ie/careers).
